Fully leverage the power and functionality of Pronto Xi Enterprise Resource Planning (ERP) with Pronto Xi Sync

Customisation is typically necessary for most enterprise integrations with third-party applications. Integrating any third-party application into any ERP system requires thorough attention to downstream processing and data integrity from a single source of truth. Post-implementation, these integrations also demand regular maintenance and enhancements to stay abreast of evolving technology and changing business processes.

Pronto Xi Sync provides a lean platform to manage your integrations with Pronto Xi efficiently. It utilises streamlined tools and technology patterns, eliminating the need for a dedicated integration team, and offering a bloat-free experience compared to other integration platforms and gateways.

The system utilises APIs and data-transfer mechanisms that seamlessly align with Pronto Xi, facilitating ongoing support and troubleshooting for day-to-day business operations.

Pronto Xi Sync was built from the ground up to work natively with Pronto Xi and provides a framework for connecting other software applications. With its secure infrastructure, Pronto Xi Sync supports organisations as they grow and add more complex software to their ecosystem. Pronto Xi Sync allows rapid connection to the systems and tools leaders often rely on to run high-performance teams. These integrations aim to sync software and data across the business, ensuring employees stay connected to the latest updates, thereby boosting the productivity and results of day-to-day operations.

## Pronto Woven

Pronto Woven is Pronto Software's award-winning digital consultancy division. Our team's innovative solutions extend the capabilities of Pronto Xi ERP to transform customer and employee engagement across digital channels.

## About us

# PRONTO

SOFTWARE

We are an Australian developer of award winning business management and analytics solutions. Pronto Xi, our Enterprise Resource Planning (ERP) software, integrates accounting, operational and mobile features in a single system – optimising business processes and unlocking actionable insights. That's why for more than 45 years, over 1,500 Australian and global organisations, across a wide range of industries, have trusted Pronto Xi to simplify their most complex challenges.

With headquarters and our Development Centre located in Melbourne, we have support offices and consultants based across Australia, as well as a global network of Resellers and Solution Partners. Specialised business units within Pronto Software have the expertise to assist you with pivotal technology – Digital Transformation with Pronto Woven, Cloud and Hosting services with Pronto Cloud and Business Intelligence solutions with Pronto iQ.

When you choose Pronto Software, you gain a team with deep industry experience, giving us the ability to understand your specific needs and build innovative solutions that drive business growth and revenue.
